

# BALING SERIES MODEL 4X2

FAW TRUCKS Baling Series, the best-selling product in the light truck series of FAW Group, with Strong cab and international designed style. It is finished automobile calibration, all-weather road experiments, 100,000 kilometers no major repair.

## BALING SERIES MODEL 4X2

FAW TRUCKS, a Chinese truck brand independently developed in China with 7 million truck users all over the world. Its annual sales of medium and heavy duty trucks of a single brand ranked first in the world in 2018, 2019 and 2020.

FAW TRUCKS Baling is molded by high-end 3D UG and CAE technologies, is designed more rationality and reliability. Its coat is painted by domestic advanced cathodic electrophoresis technology as well as surface cleaning and surface acid treatment technology, is strong enough to endure corrosion and scratch.

## FEATURES AND BENEFITS

### **Smoother shifting and better reliability----Transmission.**

The MENWO 5-gear manual transmission with a double-cone synchronizer for smoother shifting and better reliability.

### **Strong bearing capacity and more comfort ---Leaf spring**

Adopt few leaf spring structure, with strong bearing capacity and more comfort.

### **High load-bearing capacity and high safety ----Rear axle**

The 2-3T-class rear axle hyperboloid main reduction gear has super load-bearing capacity, the driving speed is more stable and fast, with high load-bearing capacity and high safety cooperating with the engine and gearbox.

### **Improved 52% of frame strength---Frame**

New special material improves frame strength by 52%

### **Engine-CA6DK**

It adopts FAW Jiefang power original engine, with new technology, low fuel consumption, low noise and excellent power performance.
